Adding Journal abbreviations to Endnote for Vancouver NIH

• To use the accepted NIH journal abbreviations in Endnote Vancouver NIH style you need to add them to your Endnote

• This is a one time task and the abbreviations will work each time you use the Vancouver NIH style

• Follow these steps

1. Open Endnote and click on Tools > Open Terms List
2. From the list that appears click on Journals term list

3. A box will open. Select the Tab Lists

Then Journals

Then Import List
4. Finally a box will open with a list of txt. files.

**Double click** on the one that says **Medical.txt** and it will add the information into Endnote.

Any references that you insert into your work using Vancouver NIH will now have the correct journal abbreviation.
